L J SCHOOL OF COMPUTER APPLICATIONS

M.Sc.(IT) Integrated Semester – 7

MIDSEM EXAMINATION Syllabus WINTER 2025

Subject Code: 050029705

Subject Name: Cyber Security

Unit – 1	**Introduction to Cyber Security**
Unit – 2	**Cyber Threats and Attacks**
Unit - 3	**Network Security** Network Fundamentals: Basics of networking and TCP/IP protocol suite, Common network vulnerabilities, Firewalls and types

Subject Code: 050020701

Subject Name: Analysis and Design of Algorithms

Unit – 1	**Basic concepts of Algorithms and its Analysis**
Unit – 2	**Algorithms Using Divide-and-Conquer**
Unit – 3	**Algorithm solving using Dynamic Programming*:*** Introduction to dynamic programming and its method, coin change problem, Rod cutting problem, Longest common subsequence

Subject Code: 050020703

Subject Name: Machine Learning using Python

Unit – 1	**Introduction**
Unit – 2	**Preparing to Model , Feature Engineering**
Unit – 3	**Modelling and Evaluation**
Unit – 4	**Supervised Learning:** Classification and Regression: Example of Supervised Learning, Classification Model, Classification Learning Steps, Common Classification Algorithms: KNN SVM Sums of Decision Tree, Navie Bayes
