Invitation to Enroll in Professional Certification Courses for Semester 5,7,9

Dear Students

In today's rapidly evolving digital landscape, acquiring in-demand professional skills is more important than ever. I'm excited to share a curated list of **industry-recognized certification courses** offered by globally reputed institutions such as **Google, IBM, the University of California, the University of Michigan, and others**—all designed to enhance your technical and analytical capabilities.

I warmly invite you to **enroll in these professional courses** to upgrade your skills and boost your career in fields such as **SEO, Databases, Cyber Security, Blockchain, Testing, Virtual Reality, Business Analytics, and AI**.

NOTE:

Students are required to complete **any two courses from their respective semester** only, based on the list of available and recommended online certifications. These certified courses are from globally recognized institutions and contribute to skill enhancement and academic credit.
